## **DETAILED ACTION**

### ***Continued Prosecution Application***

The request filed on 12/20/2001 for a Continued Prosecution Application (CPA) under 37 CFR 1.53(d) based on parent Application No. 09/430,966 is acceptable and a CPA has been established. An action on the CPA follows.

Applicants' amendment, which included cancellation of claim 9 and amendment to claim 10, filed on 12/20/2001, is also made of record.

Subsequent, supplementary amendment to add new claim 21, filed on 1/10/2002, is also made of record.

Claims 8, 10 and 19-21 are now pending.

### ***Information Disclosure Statement***

References cited in the Information Disclosure Statement, filed along with the above CPA, are considered and made of record except for the European Search Report which is not a publication per se and thus is not properly cited as such in the IDS. See MPEP 2205.

### ***Double Patenting***

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164

USPQ 619 (CCPA 1970);and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 8, 10 and 19-21 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-4 of U.S. Patent No. 6,197,779. Although the conflicting claims are not identical, they are not patentably distinct from each other because the same method of use for treating HIV infection embraced in the instant claims are also taught for a subgenus of compounds in the US Patent 6,197,719 .
